### RAMBLINGS

2016 was a good year for WFSC which means it was good for the membership. As you know the lake level has meant so much with renewed enthusiasm and a growing membership. So yes, 2016 was good but the preceding years of 2012, 13, and 14 with no rain were a real gut check for our club and its leadership. What a great inspired effort was by all in those tough years. Now here we go with everything in our favor. So it is up to your board and the membership to get us out there and sailing. There are 2 active racing fleets to keep the club respectable. Everyone's sail-related activities at the club really make us strong. 2017 will be a good year. So thank you for 2016 & I'll see you at the club....
